srbh.dev   @srbh.dev   saurabhdaware

I'm Saurabh, a Frontend Engineer with over 4 years of professional experience at Razorpay. Passionate about open source, I enjoy building creative side projects for both fun and learning.

Over last 6 years, I've worked on building multiple libraries, tools, and products like abelljs.org (featured in ViteConf), Text-to-Handwriting (4k+ github stars), VSCode Terminal Manager (26k downloads on VSCode Marketplace), and many more! Most of my work can be found on my GitHub and my Portfolio.

Achievements

🎤 Conference Talks

- "Introducing Abell, A New Vite Powered Static Site Generator" at ViteConf 2023
- "In the World of JS Frameworks, It's an HTML Framework" at React India 2023
- Check out more at Youtube Playlist

⑃ Open-Source Contributions

- Made some big and small contributions to NASA, React, Forem/Dev.to, Vite and many other orgs.
- Authored Text-to-Handwriting (4k+ GitHub Stars, 6 Million Pageviews), DEV-widget (29k+ NPM downloads), Abell (400+ Stars).

Technical Skills

JS JavaScript / TypeScript   Node.js

⚛ React   Ⅴ Vue   ⚛ React Native

🎨 Design System   HTML   CSS

Documentation   Infrastructure

✏ Writing RFCs & Tech Specs

Education

🎓 Bachelor of Engineering in I.T.

Terna Engg College, Mumbai University

📅 Apr 2016 - Nov 2020

GPA: 6.7/10

Work Experience

Senior Frontend Engineer, Razorpay

📅 Apr 2022 - Present • 2 Years 7 Months

React, React Native, Node.js

- Worked in Frontend Core team to build Razorpay's Open Source Design System which was also featured in Figma's Official Blog and is adopted by nearly all teams at Razorpay
- Reduced bundle-size from our design-system's components and node_modules by 60% by fixing complex treeshaking issues in bundler (44kb -> 13kb in components, 47kb -> 23kb in node_modules)
- Moved razorpay.com's AB experiments to Lambda Edge to perform AB experiments without any hit to the server
- Mentored 2 juniors through Razorpay's 1:1 mentorship program

Frontend Engineer, Razorpay

📅 Dec 2020 - Apr 2022 • 1 Year 4 months

React, Node.js

- Was awarded "MVP Rookie" for building Razorpay's App Store in just 20 days of joining after quick onboarding to complex codebase
- Received anoter "MVP Award" for my work on building one-stop monitoring dashboard for any issues on razorpay.com along with slack alerts and pagerduty
- Migrated a legacy codebase from gulp and pug setup to modern TypeScript + React SSR
- Improved loading performance of razorpay.com by 40% from 4.3s to 2.6s. Also documented the process which was referred by other internal teams to improve performance of their apps

Full-Stack Intern, The Souled Store

📅 Jul 2018 - Sep 2018 • 2 Months

Vue, Django (Python)

MEAN Stack Intern, Bew Digital

📅 Jan 2018 - Apr 2018 • 3 Months

Angular, Node.js

Still not convinced about hiring me? you can checkout my portfolio at srbh.dev or reach out at saurabhdaware99@gmail.com for any clarifications or questions

Thank you for your time! Have a Great Day 🌻
